My Happy Healthy Windy Chicago Life Game

My Happy Healthy Windy Chicago Life is a one-player simulation card game. This game is about life and daily activities, based on my personal experience living in Chicago. The objective of this game is to survive and be healthy and happy. It is a small and seemingly simple goal but can be challenging to achieve, both in-game and in real life. It aims to make players have fun, while also allowing them to reflect on their own life through playing this simulated life experience.

Narrow Bridge Arts Club Signs

Graphic Design / Laser Cut

2024

Designing laser-cut signs for a community arts club in a renovated historical church involves incorporating artistic elements that reflect the club's vibrant spirit to attract new members. Using decorative icons and fonts that align with the club's identity. The project uses recycled cardboard and colored paper for sustainability employing layered effects to enhance visual appeal.

Mille Bornes Cards Re-skin

A re-skin project for a classic racing card game — Mille Bornes. Introducing a new visual identity to the game to enhance the functionality, accessibility, and thematic connections without significantly altering gameplay.

By using bright color and modern design elements, the project emphasizes the road as a key background feature, highlighting the game's sense of progression and journey.

Light Ocean

In this project, the animations are motion captured and acted by myself. As well as the background music created by myself. It all comes together to create this imagery, which expresses an experience or state somewhere between consciousness and unconciousness.

The blue represents the liberated mind dancing/wandering through the open environment; the orange is the physical body that needs rest and a sense of security in the contained room.
